

The Hafesa Group opens a new service station in the province of Granada

- Under the banner of Hafesa Oil, a division of the Hafesa Group, the service station has three pumps, a shop, an advanced car wash centre and recycling machines that exchange containers for fuel discounts.
- It will be supplied directly from DBA Motril Port, one of the Hafesa Group's main terminals in Spain.
- The Hafesa Group is moving forward in its growth strategy through its service stations, and hopes to increase Hafesa Oil's turnover by 25%.
- Hafesa Oil customers who use the Top-Up energy card will receive a direct discount on each refuelling.

The Hafesa Group has opened a new service station in La Zubia, in the region of Vega de Granada (Granada). The station is at C/ Desmond Tutu, 19, just 200 metres from Carretera de La Zubia, and represents a new supply point in the Hafesa Oil network in Spain.

Hafesa Oil's La Zubia station offers Diesel A and Gasoline 95 with IT-Tech technology, designed to prolong the useful life of engines and improve their performance. **It will be supplied directly from one of the main plants the Hafesa Group owns in Spain: DBA Motril Port.**

This service station will remain open from 7am to 11 pm, opening at 8am on Sundays. **It has three pumps, an Adblue pump, an Autogas LPG supply point, two bays and a high-performance car wash, as well as a modern convenience store: Hafeshop.**

La Zubia station has a recycling programme called **"Recycle and Earn"** offering **fuel discounts for all customers who deposit containers in any of the two recycling machines installed at the station.** This initiative forms part of the Hafesa Group's sustainability strategy.

The acquisition of the La Zubia service station reaffirms the **Hafesa Oil's commitment to the company's expansion plan.** This new opening, and others due in 2022, will add to the four service stations the company already owns in Spain (**Valdepeñas, Calders, As Marismas and Sardón del Duero**), and the Hafesa Group expects **increase Hafesa Oil's turnover by as much as 25%.**

Top-Up Energy: Hafesa Oil rewards its customers' loyalty

The new service station at La Zubia **will also offer all its customers – both individuals and self-employed professionals – the Top-Up energy card**, which they can request free at the station. It will allow them to enjoy a direct discount on each refuelling, providing additional savings on their fuel costs.

Javier Ramos, the managing director of Hafesa Oil, is enthusiastic about the new station opening: the first service station the Company has opened in Andalusia, in a province that is so important for the Group's business strategy, as Granada is. "The service station at La Zubia is **the result of a job well done** and has the **Hafesa Oil quality guarantee: personal attention on the forecourt for all customers, the best fuels, and other value-added services, all at very competitive prices.**"

**About the Hafesa Group**

The Hafesa Group is a holding company involved in the marketing and distribution of petroleum products. From import, through storage and distribution, to sale at gas stations and gas centres, the Hafesa Group covers all downstream phases.
